The Biblical Studies major is an interdisciplinary program that covers a diverse range of religious traditions, focusing on pivotal cultural encounters and interchanges in the ancient world. As a student in this program, you’ll gain a solid grounding in at least one relevant ancient language (Greek, Hebrew) and also study different methods of textual interpretation, both ancient and modern. The major is rooted in ancient texts; you will concentrate on the Hebrew Bible, the New Testament, and related texts by studying them in the ancient languages and by situating them in their broad historical, intellectual, and religious contexts.

The College of Liberal Arts Advantage: More Than a Major
When you study Biblical Studies at the University of Minnesota, you gain the added advantage of a College of Liberal Arts education. At CLA, the liberal arts mean you get more than just a degree in one major or another; it means you will be exposed to different areas of study, to different ways of thinking and learning. In fact, the liberal arts teach you how to learn—how to ask the right questions, how to problem solve, and how to innovate. The liberal arts prepare students for the complexities of our world, because here at CLA you will study not just, say, politics or art but also where politics and art intersect, where science and ethics intersect, where economics and the environment intersect.
