Founded in the context of global contemporary dance, the B.F.A. in dance emphasizes excellence in technique, composition, performance, and dance studies. The program requires an audition and prepares you for subsequent training designed to support professional careers in performance, creative or discursive work, or further studies.

The B.A. in dance emphasizes general studies of contemporary dance in a global context. This degree will prepare you for further studies in such areas of dance as performance, choreography, dance theory, teaching, arts management, movement therapy, and kinesiology.

**The College of Liberal Arts Advantage: More Than a Major**
When you study Dance at the University of Minnesota, you gain the added advantage of a College of Liberal Arts education. At CLA, the liberal arts mean you get more than just a degree in one major or another; it means you will be exposed to different areas of study, to different ways of thinking and learning. In fact, the liberal arts teach you *how to learn*—how to ask the right questions, how to problem solve, and how to innovate. The liberal arts highlight the complexities of our world, because here at CLA you will study not just, say, politics or art but also where politics and art intersect, where science and ethics intersect, where economics and the environment intersect.
