The Agricultural and Food Business Management major is offered jointly by CFANS and the Carlson School of Management. Through a curriculum that emphasizes concepts and methods from economics and business management, you’ll learn how to solve management issues for food industries, agricultural industries, financial institutions, and other organizations. The program provides a balance between applied economics and business management studies, with a limited amount of applied science.

Tracks in this major include:

- Agricultural Markets and Risk Management
- Entrepreneurship and Business Management
- Financial Analysis and Business Management
- Food Sales and Industry Management

Students who complete this program may also pursue graduate studies in preparation for research, teaching, or continuing education positions in academic institutions, government agencies, or industry.
