Our B.A. program is for students who wish to major in music within a broad liberal arts degree program.

Our B.Mus. in performance program is a professional degree program in which music courses make up approximately 75 percent of the program.

**The College of Liberal Arts Advantage: More Than a Major**

When you study Music at the University of Minnesota, you gain the added advantage of a College of Liberal Arts education. At CLA, the liberal arts mean you get more than just a degree in one major or another; it means you will be exposed to different areas of study, to different ways of thinking and learning. In fact, the liberal arts teach you how to learn—how to ask the right questions, how to problem solve, and how to innovate. The liberal arts prepare students for the complexities of our world, because here at CLA you will study not just, say, politics or art but also where politics and art intersect, where science and ethics intersect, where economics and the environment intersect.
Seongkyeong Kim (DMA, piano, student of Paul Shaw) was recently selected to participate in the Art of the Piano festival at the University of Cincinnati College-Conservatory of Music from May 25–June 15, 2019.

CLA Graduates: Successful Careers and Purposeful Lives
CLA graduates succeed in many different careers — law, health care, medicine, business, government, teaching, advertising, arts and entertainment, international relations, and more — precisely because they understand how to navigate a complex and interconnected world. As our alumni explain below, “Being a good employee means being curious, and continuing to evolve, and learn, and educate yourself, and I can think of no stronger foundation for doing that than a liberal arts education.”

“An education in the liberal arts is a springboard to lifelong career success”
-- Dean John Coleman
